

# PAYCONIQ CONSUMER PRIVACY & COOKIE STATEMENT

This Privacy and Cookie Statement deals with your use of the Payconiq payment service ("Payconiq"), which you can use via our Payconiq application (the "App") and other applications, offered by third parties that we have "partnered with", in which Payconiq is available ("Partner App(s)"). You can use your smartphone or tablet to pay with Payconiq for goods and services purchased by you from merchants who accept Payconiq ("Merchant(s)"). You can also use Payconiq to make and receive payments to and from other users of Payconiq ("Payconiq User(s)"). Depending on the application you are using, you may be able to see an overview of your transactions ("Transaction Overview"), nearby Merchants and/or your contacts who also are Payconiq Users.

In offering our services, we collect and process your personal data. We understand the absolute importance of safeguarding the confidentiality of your personal data. Personal data is therefore processed and protected by us with due care. We do so in accordance with applicable privacy laws and regulations, such as the EU General Data Protection Regulation (the "GDPR"). Under the GDPR, personal data covers any information which relates to an identified or identifiable individual.

In this Privacy and Cookie Statement, we describe the categories of personal data we collect, retain, process and transfer and for what purposes.

## 1. USE OF PERSONAL DATA

When you use our services, specific data pertaining to you is automatically processed by us. Some of this may contain personal data. In addition, we store and use the personal data that is provided by you in connection with your use of our services and as further explained in this Privacy and Cookie Statement.

When you register for our services and when you use Payconiq, we may, depending on the application you are using, collect and process the following of your (personal) data, for the purposes explained in this Privacy and Cookie Statement:

- first name and last name, which may be visible to other Payconiq Users and Merchants;
- e-mail address;
- address details;
- date and place of birth;
- nationality;
- IBAN bank account number, provided directly by you or your bank (if you connected your bank account to us via the application or website of your bank);
- the name associated with your IBAN;
- telephone number;
- transaction details, for instance the amount of the transaction and the date and time the transaction was made;
- usage of our App, for instance which screens you open and how much time you spend in the App;

- technical data pertaining to your device, for instance the advertising ID of your device, the device type and its operating system;
- details on the loyalty card(s) you connect to Payconiq, if applicable and provided you choose to connect loyalty card(s) to Payconiq;
- details regarding approval of payments;
- message details, if you choose to include a message with payments you make; and
- SEPA direct debit mandate, containing information provided by you, such as your first and last name, address, IBAN bank account number, your location and the date of signing the mandate.

In order to enable certain Payconiq features, we may, depending on the application you are using, also collect and process the following (personal) data, subject to your express consent:

- location details;
  - contacts on your phone address book; and
  - profile picture, provided that you choose to upload a profile picture. If you do upload a profile picture, it will be visible to other Payconiq Users.
- Identifying you and verifying your identity
- In certain cases, we are obligated to verify your identity under applicable regulation and legislation. To do so we may ask you to provide information to us or to third parties acting on our behalf. The information processed for this reason can include:

- information in your passport or other identification documents as submitted by you; and
- picture of your face as submitted by you.

We may also receive information on you from third parties, such as your bank, for identification and verification purposes, in order to comply with applicable regulation and legislation, which can include;

- first name and last name;
  - date of birth;
  - place of birth;
  - country of residence;
  - nationality; and
  - address details.
- Payments to Merchants
- In case you pay to a Merchant, we add your first name and the last five digits of your IBAN bank account number to the Merchant's Payconiq transaction overview. This enables the Merchant to identify the source of payments. If you connect your bank account to us via the application or website of your bank, the Merchant may see additional information sent by your bank to the Merchant's bank on his bank statement, such as your IBAN and the name connected to it. We may also provide the Merchant with your full IBAN when it is needed for the Merchant to refund your payment.

- Payments to Payconiq Users

In case you pay to another Payconiq User, the payee will see your first and last name (as registered with us) in his Transaction Overview, if he has access thereto, to enable him to identify the source of payments.

In case of payments by other Payconiq Users to you, your first and last name (as registered with us) will be visible to the payer – for fraud prevention purposes – before a payment is made to you, and, after the payment, in the payer’s Transaction Overview, if this is available to the payer.

- Payments to Payconiq Users nearby

Depending on the application you are using, you can make and receive payments to and from other Payconiq Users in your area, within approx. 100 meter radius from you, by opening the "find people nearby" feature, subject to you consenting to us accessing your location details. In such case, your location, profile picture and first and last name (as registered with us) will be shared with other Payconiq Users in your area, who have also opened the feature. We will cease sharing your data after you leave the respective screen.

Please note that when you open this feature, your abovementioned data will be shared with other Payconiq Users nearby, who have the feature open, regardless of whether they are in your phone book contact list or not. For the avoidance of doubt, your data will not be shared unless you open the feature.

- Information in bank statements

In the case of payments to Merchants (where you are always the payer and the Merchant is the payee) and payments between Payconiq Users (where you may be payer or payee) your information may show up on the bank statements.

We will include the payer's first name (as registered with us) in the transaction details (in case the payer signed a mandate to enable us to debit his bank account) which the payee may see on his bank statement. If the payer connected his bank account to us via the application or website of the payer’s bank, the payee may see information on his bank statement, sent by the payer’s bank to the payee’s bank, such as the payer’s IBAN and the name connected to it.

We will include the payee's first name (as registered with us) in the transaction details in case the payer signed a mandate to enable us to debit his bank account. In such case, the payer may see the payee’s first name (as registered with us) on his bank statement. Alternatively, we will provide the payer’s bank with the payee’s full name (as registered with us) and IBAN when initiating the payment, in case the payer connected his bank account to us via the application or website of his bank. In such case, the payer may see the payee’s full name (as registered with us) and IBAN on his bank statement.

- Payconiq in bank apps

We partner with some banks to allow you to make and receive Payconiq payments from your bank’s mobile application. In such cases, references in this Privacy and Cookie Statement to “Payconiq Users” may be applicable to users of these banks’ mobile applications. When you make a Payconiq payment

from your bank's mobile application, and have not otherwise registered for our services, instead of the above listed information, we will receive and process only the following data:

- your IBAN;
- the name of the account holder of the bank account;
- transaction details;
- details regarding approval of payments; and
- the bank user ID.

However, in addition to this information, we will receive and process the following data, if you choose to make use of the option offered by some of our partner banks to make and receive peer-to-peer payments:

- your first name and last name;
- your telephone number;
- your language preference;
- profile picture, provided that you choose to upload a profile picture; and
- message details, if you choose to include a message with payments you make.

- Your banks privacy statement

Do note that under all circumstances your bank's privacy statement continues to apply. For example, your bank may send further information to the Merchant or Payconiq User to which you have made a payment via Payconiq. For more information about this, and other considerations, please consult the privacy statement of your bank, which we recommend that you read carefully.

## 2. CHILDREN'S INFORMATION

Payconiq is not directed to children under the age of 16. We do not knowingly collect, use or disclose personal data from children under that age, without parental consent. If we obtain actual knowledge that we have collected personal data from a child under the age of 16, without parental consent, we will delete it as soon as possible, unless we are legally obligated to retain such data.

## 3. PURPOSES OF DATA PROCESSING

We use the abovementioned data for the following purposes:

- To offer our services:
  - To register you as a new Payconiq User.
  - To identify you, verify this identification and enable you to use Payconiq.
  - To debit amounts payable by you from your bank account.
  - To reverse payments. Depending on the reason for the reversal, to enable us to contact the Merchant for additional information regarding the transaction in question.
  - To enable you to make payments to Merchants, including the message details you included with your payment.
  - To facilitate payments between you and other Payconiq Users. For this process, the application you are using may request access to the contacts on your phone address book

and we process the first name and last name of those who make payments to you or to whom you make payments. We also process the message details you include with your payment.

- To provide you with your Transaction Overview, we process and store transaction details. This may depend on the application you are using.

Subject to your express consent, and depending on the application you are using, we may need to have access to the following services on your smartphone or tablet:

- Contacts on your phone address book, to facilitate payments between you and other Payconiq Users and to enable you to invite other people to use the App.
- Your location details, to display the nearest Merchant.
- Your camera, to scan QR codes, facilitate payments and to take a new profile picture.
- Push notifications, confirming incoming and outgoing payments and to provide information about the status of payments.
- Your photo library, to enable you to set a (new) profile picture.

You can revoke your consent for all of the above in the settings of your phone.

- **Fraud prevention**

For fraud prevention purposes, we store your transaction data, including information about the Merchants from whom you purchased products or services, your personal data and information concerning your approval for the execution of payments. We do this in order to prevent fraudulent use and limit our exposure to any risks, as well as preventing, investigating and countering (attempted) unlawful and undesirable activities targeted at you, us, our customers and staff or any other party, and for participating in internal and external warning systems.

Furthermore, before accepting you as a Payconiq User, we may perform open-source screenings (e.g. via the internet and other publicly available databases) to prevent fraud and minimise security risks.

- **Improvement of our services**

We store and analyse your (transaction) data for purposes of improving our services. Such data is used for example to improve the user-friendliness of Payconiq. For this purpose, we analyse Payconiq Users' click behaviour in the App on an aggregate level, the time spent on the App and usage of specific features of the App. To improve our services, we make use of a variety of cookies and similar technologies as explained further below in this Privacy and Cookie Statement.

- **Marketing for purposes of the App**

We use your personal data when preparing marketing campaigns, provided you have consented to receiving marketing communication. For example, we use your name to address you personally in e-mails and/or in-app messages and we use your language settings to write to you in the language of your preference (when supported). To improve our marketing, we may use your advertising ID (see also Section 4 below) to determine if you have already installed our App and to serve you more relevant advertisements. We also use this information to improve marketing campaigns targeted at new Payconiq Users.

- Compliance with legislation and regulations

Personal data is processed for purposes of complying with laws and regulations as well as sector-specific guidelines and regulations, including legislation to prevent money laundering and the financing of terrorism. For the prevention and detection of crime, including fraud and/or money laundering, we need to carry out checks and verify your identity. For this purpose, we may also rely on third parties, such as your bank.

#### 4. ADVERTISEMENT IDs WHEN USING OUR APP

To serve more relevant ads, we may use advertising IDs from your device. In Android operating systems these are called 'Advertising-IDs', and in iOS operating systems, 'Advertising Identifiers'. These are unique and non-permanent ID-numbers that are made available for a particular mobile device by iOS or Android. The Advertisement ID is a randomly generated number which is not linked to any other device identifiers. The ID numbers are used by the advertising networks we use. It allows them to know if we have served an advertisement for Payconiq to a mobile device earlier, so they can serve more relevant ads later and can track if our advertisements result in downloads and usage of our App. We do not share data on your location, the shops you have visited, your transaction history, contact details or other personal information with our advertising networks.

You can choose to reset the advertising IDs or disable them. For more information on the resetting or disabling of these IDs, please refer to the website of Google or Apple, or check the settings on your smartphone or tablet.

#### 5. RETENTION PERIODS

We retain your (personal) data for no longer than is necessary for the objectives described in this Privacy and Cookie Statement, except where we are required to do so by the applicable laws.

If you delete your Payconiq account, we will only retain your (personal) data as long as necessary for the objectives described in this Privacy and Cookie Statement, except where required to do so by law. Please note that if you delete your account, Payconiq Users that have made a payment to you, and to whom you have made a payment, will still see your first and last name in their Transaction Overview if this is available to them.

The data we collect via cookies, is stored according to the privacy statements of the relevant third parties. Please view the privacy statements of the third parties referred to in Section 10 for more information.

#### 6. SECURITY

We take appropriate security measures to prevent misuse and unauthorised access to your personal data. In doing so, we make sure that only the necessary persons will have access to your data, and that access to your personal data is protected in accordance with applicable data protection laws.

#### 7. NEWSLETTER

We may send you an occasional newsletter. In such case, you will be provided with the option of opting in or out for newsletters. With each newsletter you have the option of unsubscribing.

## 8. SERVICE E-MAILS / MESSAGES

From time to time, we may also send service e-mails and in-app messages about important information regarding your Payconiq account or any other important updates about our services which are relevant for your use of Payconiq. In Partner Apps, in-app messages may be sent on our behalf by the provider of the Partner App. In the event our general terms and conditions will be amended or supplemented, we will also notify you through the application you are using and/or via the e-mail address you have provided to us. Should any fraudulent or suspicious activity occur in connection with your account, we will of course contact you as well.

## 9. PROVISION TO THIRD PARTIES

The personal data you make available to us will not be disclosed to third parties without your consent, except; for performance of the agreement, where there is a legitimate interest to do so in relation to Payconiq, for fraud prevention purposes and/or where we are required to do so by law. In the delivery of our services, we thus make use of third parties, such as our affiliates, partners or subcontractors, which we work with to provide our services to you. These third parties are only authorized to use your personal data as necessary to provide their services to us or to you. We may also send certain data to your bank and/or other payment service providers when there is a legitimate interest or legal obligation to do so, such as for the purposes of fraud prevention or personal financial management, or when you use your bank's mobile application to make or receive Payconiq payments.

If you use Payconiq via the "Payconiq by Bancontact" app, we can share your personal data in the context of our collaboration with Bancontact Payconiq Company nv/sa. The personal data is used for marketing analysis. For this we share whether you have activated Payconiq in the "Payconiq by Bancontact" app and part of your transaction data. We have put a variety of appropriate safeguards in place to guarantee your privacy. As little identifying personal data as possible will be shared and Bancontact Payconiq Company nv/sa's security measures are strictly monitored by us. If you do not want us to share your personal data with Bancontact, you can object to this by contacting us using the details below.

Our services are provided in multiple countries and we work together with third parties that are located worldwide. We only share your information with third parties in countries that provide an adequate level of protection or when appropriate safeguards are in place.

## 10. COOKIES AND OTHER IDENTIFIERS

Cookies are small text files that are automatically stored or read out from the visitor's device (including a PC, tablet or smartphone) whenever you visit a website or when installing and using an app. The information obtained by a cookie regarding your use of our App, your IP address as well as the ID of the device you use, can be transferred to a secure server in use by us or a third party. In general, this information is collected and analysed for the following purposes:

- to generate general statistics and to obtain information on the public's usage of Payconiq and to improve the user-friendliness of Payconiq (analytics cookies); and
- to improve our marketing activities (targeting and marketing cookies and other identifiers).

For the abovementioned purposes, we make use of the following cookies in our App:

- Analytics cookies:

Google Analytics. Google Analytics collects information on how you navigate in the App. We have concluded a data processing agreement with Google and we have implemented other measures to safeguard your privacy. For instance, we have de-activated the standard setting in Google Analytics for sharing your personal data with Google. Additionally, Google is committed to adhering to multiple self-regulation frameworks. Also read the privacy statement from [Google](#) (which is subject to change) to see what they do with your personal data, which they collect via these cookies.
- Targeting and marketing cookies and other identifiers:
  - Adjust. We use Adjust to have a better understanding of our advertising performance across multiple channels by tracking and attributing downloads and usage of our App to the sources they originate from. The source can be our website, for which we have a separate privacy statement, and advertising or business partners. We send Adjust your device advertising ID, as described in Section 4, to enable Adjust to track the relevant originating source. Read the privacy statement from [Adjust](#) (which is subject to change) to see what they do with your personal data, which they collect via these advertising IDs. You can opt-out of tracking by Adjust [here](#).
  - Adform. We use Adform for performance measurement and optimization of our online advertisements. Adform will tell us if a certain device has seen a Payconiq advertisement more than once and whether a device has seen previous Payconiq advertisements. It will adapt advertisements based on whether a device has seen a Payconiq advertisement before. You can opt-out from the Adform cookie [here](#). Read the privacy statement from [Adform](#) (which is subject to change) to see what they do with your personal data, which they collect via these cookies.

Partner Apps may use their own cookies which are not covered in this Privacy and Cookie Statement. Information on these, and how the personal data collected by these is processed, can be found in the privacy statements of the application in question.

## 11. WEBSITES OF THIRD PARTIES

This Privacy and Cookie Statement does not apply to third party websites that may be linked to in our App, nor does it apply to the use of other services than Payconiq services through Partner Apps. This Privacy and Cookie Statement does not apply for example to the Merchants from whom you obtain products or services or any of our loyalty partners. We cannot guarantee that your (personal) data will be used by these third parties in a reliable and safe manner. Therefore, we advise you to read the privacy statement of these websites or applications before using their services.

## 12. RIGHTS OF DATA SUBJECTS

If we process your data, you have the right to contact us requesting to view, change, export, remove, object to or restrict the processing of this data. You can send this request by e-mail to [hello \(at\) payconiq.com](mailto:hello@payconiq.com), or call us on: + 31 (0)20 – 760 66 99 (Mondays to Fridays from 8.00-18.00, and Saturdays from 9.00-17.00). You can find your local number on our website, [www.payconiq.com](http://www.payconiq.com), by

selecting the country site of your preference. If you are using Partner App, you may also find local contact details in the privacy statement of the party offering the application, its website and/or in the application.

To prevent abuse, we may ask you to provide proper proof of your identity, for instance by providing a copy of your ID.

### 13. CHANGES IN THIS PRIVACY AND COOKIE STATEMENT

We reserve the right to amend this Privacy and Cookie Statement. You can always check the application you are using or our website to see the latest version. We may also notify you of modifications through the application you are using and/or via e-mails. For this reason, it is recommended that you check these on a regular basis in order to be aware of changes.

### 14. SUPERVISORY AUTHORITY

We are of course at your service should you wish to make a complaint regarding the processing of your personal data. You have the right in accordance with privacy legislation to submit a complaint to the competent supervisory authority in your country of residence in connection with our processing of your personal data.

### 15. CONTACT

Should you have any queries and/or comments to make after reading our Privacy and Cookie Statement, please get in touch with us as follows:

Website:	<a href="http://www.payconiq.com">www.payconiq.com</a>
Address:	Payconiq International S.A. 9-11 rue Joseph Junck L-1839 Luxembourg Luxembourg
Telephone number:	+31 (0)20 760 66 99 You can find your local number on our website, <a href="http://www.payconiq.com">www.payconiq.com</a> , by selecting the country site of your preference.
E-mail address:	<a href="mailto:hello(at)payconiq.com">hello (at) payconiq.com</a>
Data Protection Officer:	privacy (at) payconiq.com

If you are using Payconiq via a Partner App, please refer to the privacy statement of the third party offering the application in question to get information on the personal data collection and/or - processing of the party offering that application, as well as for local contact details.

This Privacy and Cookie Statement was last modified on 1 September 2020.

Payconiq International S.A. has its registered office at 9-11 rue Joseph Junck, L-1839 Luxembourg, Luxembourg, and is listed in the Commercial Register in Luxembourg under number B 169621. Payconiq International S.A. is a payment institution supervised by the Commission de Surveillance du Secteur Financier («CSSF»), the financial regulator in the Grand Duchy of Luxembourg.
